

**CALL FOR PROPOSALS**  
**\$6 MILLION AVAILABLE**  
**SCIENCE PROGRAM 2006**  
**PROPOSAL SOLICITATION PACKAGE**  
**CALFED Science Program**

The CALFED Science Program is announcing a solicitation for research proposals in support of the CALFED Bay-Delta Program. The package is now available. Proposals are due Aug. 31, 2006.

The goal is to invest in knowledge that will fundamentally advance the understanding of the complex environments/systems within the scope of the CALFED program to aid resource managers.

A total of approximately \$6 million will be available for research in four topic areas:

1. Environmental Water
2. Aquatic Invasive (Exotic) Species
3. Trends and Patterns of Populations and System Response to a Changing Environment
4. Habitat Availability and Response to Change

Please visit [http://science.calwater.ca.gov/psp/psp\\_package\\_2006.shtml](http://science.calwater.ca.gov/psp/psp_package_2006.shtml) to access detailed information about this opportunity.
